MTB Project Trail Comments**Bankshot**

This is a short connector trail or alternate route and has no details, though it will appear on all maps.

Bronc Trail

 **Downhill bike traffic only.**

From the water tank, the trail drops through a gully with natural berms and then cuts sidehill. After a big right-hand turn, the trail sweeps back with reverse grade fun. Hit the gap jump or pump through it to a series of S-turns. Drop into the gully again and choose to drop right for the finisher berm! This trail was built the spring of 2015 with over 250 volunteer hours spent finishing this one up. There are more plans in the future for the hill, so stay tuned for updates! Keep a heads up for pedestrians. The trail bisects the old Rock'n Roll Trail (not signed anymore but can still see hiker traffic) which has "yield to bikes" signage on the crossovers. There are a number of trailheads that are located off of Hot Springs Blvd and behind the San Juan Motel.

Buena Vista

This is a short connector trail or alternate route and has no details, though it will appear on all maps.

Connector

This is a short connector trail or alternate route and has no details, though it will appear on all maps.

Crosscut

 **Downhill bike traffic only.**

From the top of the lookout tower, this singletrack drops off the north side of the hill. There are a few tight and steep switchbacks ready to greet you. The trail flows sidehill with the option to hit a ladder drop (not often hit), then it connects into Skyrocket to finish out the downhill with a series of hip jumps. You can also head back up to the right for another lap.

FreeRide

This is a short connector trail or alternate route and has no details, though it will appear on all maps.

Greenhorn

This is a short connector trail or alternate route and has no details, though it will appear on all maps.

Rosebud

This is a short connector trail or alternate route and has no details, though it will appear on all maps.

Skyrocket

To access this trail, start at the trailhead behind San Juan Motel/Eastside Market. Skyrocket is a good climb with tight switchbacks to get you up to the top of the hill. There are great views and an observation deck at the top to take a break.

Tecolote Loop

A one mile, main beginner loop in the middle of the park. Follow the Owl (tecolote) signs. The loop is best ridden clockwise. Access the loop via Tenderfoot or Greenhorn from the southwest side of the park.

Tenderfoot

This is a nice, wide, switchbacking, climbing trail that gets you to the water tank to access Bronc Trail, Tecolote Loop, and the Festival Meadow.

Terry Smith Loop

This is a short connector trail or alternate route and has no details, though it will appear on all maps.

Wapiti

This is a short connector trail or alternate route and has no details, though it will appear on all maps.
